

Practical
Research
Methods for
Librarians and
Information
Professionals

Susan E. Beck and Kate Manuel

Contents

List of Figures	vii
Preface	xi
Acknowledgments	xv
1. The Benefits of Research	1
Why Research Matters	1
Using This Book	7
References	13
2. The Research Process	15
Finding a Topic	17
Formulating Questions	22
Defining the Population	23
Selecting a Research Design	24
Gathering Data	29
Interpreting the Evidence	31
Telling the Story	32
References	33
3. Content Analysis	35
Finding a Topic	38
Formulating Questions	45
Defining the Population	46
Selecting a Research Design	50
Gathering Data	56
Interpreting the Evidence	60
Telling the Story	63
References	64
4. Interviews and Focus Groups	67
Finding a Topic	76
Formulating Questions	82
Defining the Population	83
Selecting a Research Design	88

Gathering Data	93
Interpreting the Evidence	98
Telling the Story	103
References	105
5. Observation and Usability	109
Finding a Topic	111
Formulating Questions	117
Defining the Population	119
Selecting a Research Design	121
Gathering Data	124
Interpreting the Evidence	126
Telling the Story	127
References	128
6. Experimental Research	131
Finding a Topic	132
Formulating Questions	136
Defining the Population	138
Selecting a Research Design	144
Gathering Data	152
Interpreting the Evidence	156
Telling the Story	160
References	163
7. Bibliometrics	165
Finding a Topic	167
Formulating Questions	171
Defining the Population	173
Selecting a Research Design	176
Gathering Data	181
Interpreting the Evidence	183
Telling the Story	190
References	193
8. Action Research	195
Finding a Topic	199
Defining the Population	202
Formulating Questions	205
Selecting a Research Design	207
Gathering Data	210
Interpreting the Evidence	211
Telling the Story	211
References	213

9. Classroom Research	215
Finding a Topic	217
Formulating Questions	220
Defining the Population	223
Selecting a Research Design	224
Gathering Data	228
Interpreting the Evidence	229
Telling the Story	232
References	234
10. Avoiding Common Pitfalls in Research	237
Asking the Wrong Questions	238
Gathering Data in the Wrong Context	241
Using Unrepresentative Samples or Not Recognizing Response Bias	242
Seeing What You Want to See	243
Heisenberg's Uncertainty Principle	245
Presenting Numbers without Addressing Their Significance	246
Jumping to Conclusions	247
Legal and Ethical Guidelines for Research	250
References	265
11. Synergies in Research	267
Researching from Your Job	267
Conducting Meta-Analyses	273
Performing Secondary Research	275
References	278
Index	281
About the Authors	309
