

The Scientific Article in the Age of Digitization

by
John Mackenzie Owen

Contents

List of Figures	ix
List of Tables	xi
1. INTRODUCTION	1
1 The birth of the electronic journal	1
2 The electronic journal 'revolution'	5
3 Electronic journals: the issues	8
4 Studying digitization	11
5 Information Science	13
6 Theory	15
7 Methodology	18
8 Level of analysis	19
9 Outline	21
2. THE DEVELOPMENT OF SCIENTIFIC COMMUNICATION	23
1 The historical perspective	24
1.1 The Scientific Revolution	25
1.2 The early impact of printing	27
1.3 The scientific societies	28
1.4 The scientific journal	31
1.5 The development of the electronic journal	34
2 The scientific journal	37
2.1 The structure of the scientific article	38
2.2 The evolution of the scientific article	41

3.	THE SCIENTIFIC COMMUNICATION SYSTEM	45
1	Scientific communication	45
2	Models and metaphors	47
2.1	The conduit metaphor	48
2.2	The information chain	50
3	Early models	52
4	Transaction space	56
5	Continuum model	60
6	Functions of scientific communication	63
7	The author	66
8	From print to digital	71
8.1	The digital information chain	71
8.2	Systems based communication	76
8.3	Institutional repositories	80
9	Innovation of the scientific journal	83
9.1	Scholarly Communication Forums	84
9.2	The innovation chain	85
10	Complexity of scientific communication	89
4.	THE DIGITIZATION OF INFORMATION RESOURCES	93
1	Introduction	93
2	The concept of digitization	94
3	Networked information	97
4	Dynamic information	101
5	Quasi-intelligent documents	107
6	The functional document	116
7	The 'copy paradox'	118
8	The problem of authenticity	120
9	Reading, creating and control	125
10	Characterizing the digital article	128
10.1	The digital document	128
10.2	The digital scientific article	129
5.	THE ELECTRONIC JOURNAL 1987-2004	131
1	Analytical framework	131
2	Research data	135

3	Results of the survey	138
3.1	Scientific fields and publication year	138
3.2	Submission formats	140
3.3	Publication formats	142
3.4	Multimedia	143
3.5	Data resources	145
3.6	Revision	146
3.7	Response	147
3.8	Customization	149
3.9	External hyperlinks	151
3.10	Functionality	153
3.11	Navigation	154
3.12	Peer review	159
3.13	Copyright	161
3.14	Editorial policies	162
4	Open Access journals	167
5	Evaluation	171
6	The impact of digitization	177
6.	DIGITIZATION AND THE EVOLUTION OF SCIENTIFIC COMMUNICATION	191
1	Explaining development	191
1.1	The closure of scientific communication	191
1.2	An evolutionary view of scientific communication	197
1.3	The diffusion of innovations	201
2	The technology myth	210
3	Transforming scientific communication	214
3.1	The significance of the electronic journal	214
3.2	The illusion of new media	216
3.3	The shadow of the format	219
3.4	The epistemological position	220
4	The impact of digitization on scientific communication	221
4.1	The illusion of a revolution	221
4.2	The dynamics of change	222
5	Final conclusions	223
	Bibliography	227
	Index	259
