Keeping the User in Mind

Instructional Design and the Modern Library

Valeda Dent Goodman

CHANDOS PUBLISHING

Contents

<i>About the author</i>	<i>xi</i>
<i>Foreword</i>	<i>xiii</i>
<i>Acknowledgments</i>	<i>xvii</i>
<i>Introduction</i>	<i>xix</i>
1 A brief history of instructional design	1
Early foundations of instructional design	1
The role of psychologists in the development of instructional design	5
Other key influences	9
International development	12
References	13
2 How we learn: fundamental learning theory and the connection to instructional design	17
Behaviorism	18
Cognitivism	22
Constructivism	25
Connecting learning theory and instructional design in libraries	28
References	31
3 The many faces of instructional design: highlighting the diversity of instructional design models	35
Six examples of instructional design models	37

	Deciding which model to use – classifying instructional design models	48
	References	50
4	Instructional design and higher education	53
	The instructional designer within academia	54
	The role of e-learning	56
	Understanding the challenges	57
	The library connection	59
	Can instructional design improve higher education?	63
	References	67
5	In the mix: instructional design and the instructional mashup	71
	New media for the delivery of designed instruction	80
	Learning objects and instructional design	82
	The user experience and instructional design	87
	References	89
6	Closing the gap between instructional strategies and instructional design	93
	The role of librarians as educators and teachers	96
	Integrating information literacy and instructional design	100
	Instructional strategies that work	104
	Using instructional design models to craft an information literacy lesson	111
	References	116
7	The instructional design process in action: highlights from Kognito Interactive	121
	<i>By guest contributor Ralph Vacca</i>	
	Kognito's design and development process	122
	Managing the instructional design process	128

Development of the Hunter College “Formulating a Search Strategy” learning module	131
8 Administrative and professional challenges to the use of instructional design in the academic library	141
Practical considerations for hiring instructional design librarians	142
Social and cultural implications for instructional design within the educational context	144
The blended librarian concept	149
Creating new roles for instructional designers within the library	151
References	155
9 Keeping the user in mind: using design thinking to connect libraries and instructional design	159
<i>By guest contributor Steven Bell</i>	
Why design?	161
What is design thinking?	163
Applying design thinking in your library	166
Designing better library user experiences	168
Instructional design: more alike than different	171
So you want to be a design thinker	172
References	175
Further reading	176
10 A glimpse of the future: the semantic web and library instructional design	177
References	182
Conclusion	183
Index	185
